Minutes of SAG meeting

The proposal for diversion 12.127 ha of reserved forest for extension of air strip in Kanchanpur Ghopla and Gangol Forest Block in Meerut district was discussed in SAG on 27.05.11. It was informed that the proposed activity is an extension already existing air strip and the requirement of forest is inescapable. The total forest area involved in four patches and extension of air strip is required in length and width. The area is not a part of wildlife sanctuary or national park. 2507 trees are proposed for felling which mainly comprises of prosopis. The land for CA is proposed in Lalitpur district in equivalent non forest land this is not in accordance of FCA guidelines. SAG desires that the land for CA should be given in the same district. If the land is not available the DM should given the certificate of non availability of non forest land for CA and in this case the NFL could be considered in the neighboring district. Therefore the SAG requested the State Government / concerned department to submit proposal for CA in NFL in district Meerut or in the neighboring district as the case may be for the consideration of the proposal for proposed activity. SAG agrees to recommend the proposal for approval subject to submission of proposal of CA in NFL as mentioned above.
